

Zone 4, Region 4

Due to my involvement with other roles in the District, it's been difficult to provide the clubs in the zone with the close support that a zone chair should provide;

Somers Lions Club:

Lost 6 members at the start of the year and maintain an active membership of 20 Lions. They continue to be active, meeting the needs of their community. Despite assurances from the secretary, and regular reminders to him and the club president, this club seldom file any membership reports; the last they filed was in December 2013. I will address the impact of this at a zone meeting planned for May

Tolland Lions Club: Very active in their community, this club added two new members since the start of the Lions year club maintaining a membership of 32.

Stafford Lions Club: A club with 17 members, also active in their own community, recently ran a bingo session at their local nursing home

All 3 clubs are active within their communities, but tend not to get involved at District level. I will try to encourage greater involvement from all 3 clubs at the upcoming zone meeting

Respectfully submitted;
Acting ZC John Bradshaw
