

District 23C Cabinet Meeting
Monday, August 5, 2013, 7:00 P.M.
Elks Club, Putnam, CT

GLT Report

The Multiple District GLT Committee will be meeting later this month to formulate and begin implementation of various forms of Leadership Training. Informally there has been some discussion about holding a "Train the Trainer" seminar next spring and of course whatever seminars are required for the Midwinter Conference. I will report on this meeting and the plans for upcoming programs at the October Cabinet meeting. I will report via electronic media to you, our District Leaders, any time sensitive initiatives occurring prior to our next Cabinet meeting.

One of my responsibilities as the District GLT Coordinator is to report to the Multiple District GLT Denise as well as to the Leadership Department at LCI what areas of Leadership development are needed within our district and how we plan to address these needs during the upcoming year. Periodically throughout the year I will be asked to report our progress and the programs we used to reach our goals. To do this assessment properly I will need to meet with the District Governor's Team to insure that I am accurately planning for the needs of our district.

Once I have met with DG Steve, 1st VDG Nanette and 2nd VDG Nancy to determine their wishes for training for our district, I will meet with the District 23C Leadership committee to develop those specific programs. DG Steve indicated last June that he would like to personally lead several New Member Orientation sessions throughout the district this year, but these are in the discussion stage only at this time.

Last June's Leadership training session held in Norwich was well attended and all of the presenters were given high marks in the student evaluations. There were several suggestions from the attendees as to some other offerings they would like to see made available throughout the year and not just at the end of the Lions year. I will be reviewing these with the Leadership committee members when we meet.

The June 2014 Leadership training will be held in Colchester at Bacon Academy.

Respectfully submitted,

Diane Bielski, 23C GLT
